THE OLD WAY IS COSTING YOU.
PITWATER® IS THE SMARTER WAY.

BAD PRACTICE		THE PITWATER® WAY.
	**UNHYGIENIC** Multiple hands, bottles and containers.	 **HYGIENIC** Cups are filled without handling each one.
	**OPEN TO CONTAMINATION** Exposed water in open bins.	 **CLEAN & SAFE** Water comes from a single, controlled source.
	**UN ERGONOMIC** Stewards could damage their backs by bending down repeatedly.	 **ERGONOMIC** Correct height for filling. No repeated bending down.
	**INEFFICIENT** Slow filling, single fill cup and wasted time.	 **EFFICIENT** Fill 20 cups in seconds. Serve hundreds more.
	**UNHYGIENIC PIT BINS** Dirty, hard to clean and unpleasant.	 **NO PIT BINS** No mess, no cleaning. no problem.

VS

TRUSTED BY STEWARDS.
LOVED BY CROWDS.

> "This is 100% better than anything we have used before"
> ★★★★★
> – STEWARD

> ...So much better"
> ★★★★★
> – EVENT STAFF

> "We have used 3000 cups at this one station!"
> ★★★★★
> – STEWARD

KEEP YOUR CROWD COOL. KEEP THEM COMING BACK.

WORK 100% RECYCLED TRAYS
Better for your event.
Better for the planet.

WHAT DOES IT DO?

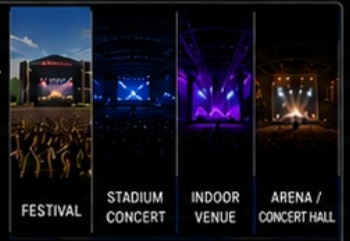

- ✓ Provides water hygienically to the dense crowd at the front of stage barrier - no fingers in cups, no hands in an open pit bin to fill cups, no need to sterilise pit bins - no need for bins themselves
- ✓ Provides water efficiently and effectively - 3000 cups per station over a day festival have been achieved
- ✓ No need to pre load cups and store them unhygienically on the barrier steps or below the barrier
- ✓ Cup holders can be customised to any cup used
- ✓ Economic - please contact for hire costs

WHERE CAN IT BE USED?

Anywhere where a mains water supply - temporary or permanent installation - is already provided or available to the event at the front of stage area to provide water for attending public.

This can be a Festival, Stadium concert, Indoor venue, Concert Hall, Arena.

WHAT IS THE COST?

It is priced as economically as possible - please contact us to discuss.

WHY BOTHER?

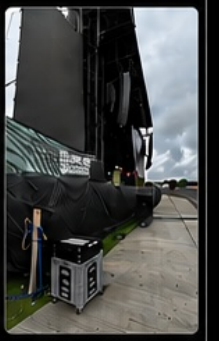

The main business aim is to replace the unhygienic and outdated use of open plastic bins (pit bins).

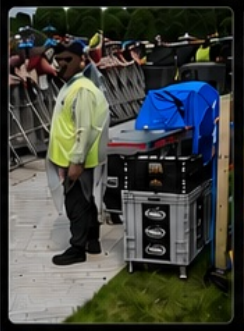

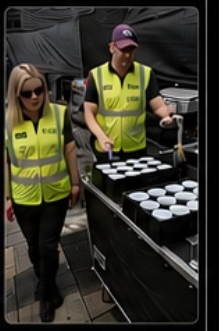

BUILT FOR REAL EVENTS

Trusted by stewards.
Loved by crowds.
Proven at the front of stage, where it matters most.
